

Archiver un Sale Order

Le module [sale_order_archive](#) permet d'archiver des bons de commande qui sont en statut "Verrouillé" ou "Annulé".

The screenshot displays the 'The Food Hub Wholesale' CRM interface. The top navigation bar includes 'Ventes' (Sales), 'Commandes' (Orders), 'Facturation' (Invoicing), 'Catalogue', 'Rapport' (Report), 'Configuration', and 'Edit Price'. The sidebar on the left shows 'Modifier' (Edit) and 'Créer' (Create) buttons. The main content area shows the details of a sales order (SO13518). The order is in the 'Verrouillé' (Locked) status, indicated by a red arrow pointing to the 'Verrouillé' button in the status bar. The status bar also includes 'Actif' (Active) and 'Annulé' (Cancelled) buttons. The order details include the client name, address, date of confirmation, list of prices, and condition of payment. The order is associated with 2 deliveries and 1 invoice.

Le bon de commande apparaîtra toujours dans les rapports de ventes (sauf si le bon de commande est annulé, auquel cas il n'apparaîtrait pas de toute façon)
